PROFILE

Computer Science undergraduate specializing in AI & ML, with hands-on experience building full-stack web applications (MERN) and a strong interest in cloud infrastructure and automation.

EXPERIENCE

SysIntelli Software and Services Pvt Ltd

05/2025 – 08/2025

Student Intern – Java Developer

Remote

- Developed and maintained Java-based applications following OOP principles
- Debugged and optimized code, collaborating with senior developers to improve performance

PROJECTS

Real-Time Restricted Area Monitoring System using YOLOv8 – [View](#)

- Built a real-time security monitoring system using YOLOv8 to detect unauthorized persons and vehicles in restricted areas, trigger instant alerts, and log incidents through a Streamlit/FastAPI dashboard

HoverCharge – Startup Landing Page with AI Features – [View](#)

- Built a responsive landing page for an EV wireless charging startup idea with AI-driven user experience

Legacy Wallet – Live Demo

- Engineered a secure cloud-native digital inheritance platform using React, TypeScript, and Supabase, enabling users to manage and allocate digital/physical assets through text, audio, video, and AI-assisted wills with privacy-focused RLS security and automated beneficiary notifications

EDUCATION

VIT-AP University

09/2023 – Present

Bachelor of Technology in Computer Science (AI & ML), CGPA: 8.84

Sri Chaitanya Junior College

09/2021 – 03/2023

Board of Intermediate Education AP (MPC), Percentage: 96.9

Andhra Pradesh Residential School

06/2020 – 04/2021

Board of Secondary Education AP, Percentage: 97.8

AWARDS

Winner – VLaunch Pad 2025, IIEC-VIT-AP [Certificate](#)

- Recognized by Central Minister Dr. Pemmasani Chandra Shekhar for innovative startup idea HoverCharge

CERTIFICATES

MERN Stack – Face Prep [View](#)

SysIntelli Internship Completion Certificate [View](#)

SKILLS

Programming & Frameworks : Java, Python

Database : MySQL, MongoDB

SDLC Knowledge : Requirement Analysis, Design, Coding, Unit Testing

Web Development : HTML, CSS, JavaScript, Responsive Design

Developer Tools : VS Code, SQL Workbench, Git/GitHub, Canva

Automation & AI : n8n Workflow Automation
